## **PROJECT EXPERIENCE**

Installing and Using Active Directory (WGU Capstone)

- I installed a Windows Server 2019 installation through Hyper-V to create a virtualized Active Directory lab. I configured DHCP, DNS, a domain, users, and Group Policy Objects.

Automating Backups in Linux

- Using a Kali VM hosted on Hyper-V, I created a Bash script that automated backing up a folder and files. This script was then inserted into a Cron Job rule for monthly backups.

Portfolio Website - <https://NathanRichie.github.io/>

- Using HTML, CSS, and GitHub pages, I created my own website that provides prospective employers with more information about me.
